Organized & Prioritized Task List

Core Mission

- Evaluate task list, configuration, tricks and techniques how to do task lists.
- Reorganize and construct all my stuff by creating a model that is functional, efficient, and aesthetic.
- Create calendar to-do lists.
- Develop the DOEJB system (Discipline, Organize, Essentials, Job, Business) by November.

Urgent

- Bring umbrella back.
- Decide on a functional and aesthetic model for digital storage.

Important

- Organize assets into the newly developed storage system.
- Plan for starting a business and securing a job.
- Download all school assets in Messenger to Google Drive.
- Complete digital and physical asset organization.

Common

- Include regular laundry and exercise in daily routine.

Nice-to-Have

- Ask ChatGPT for insights on task efficiency improvements.
- Explore automation options to streamline processes.

Optional

- Write goals related to long-term ambitions, such as improving the country's status.
- Research models and methods for maximizing productivity.

Low Priority & Problem Notes

- Consider personal habits and identify any that need elimination.
- Reflect on past challenges with focus, consistency, and systematic approaches.
